Conclusion: The most defensible current assessment is based on "Denmark, France, Greece, Italy and Spain are adopting customised versions of the EU age-verification solution," the strongest indexed record by source grade and evidence status. | Evidence Classification: ESTABLISHED PUBLIC RECORD | Confidence: 93 | Limitations: One strong record cannot by itself prove a wider pattern, motive, conspiracy or command structure. | Alternative Interpretation: The record may have a narrower legal or factual meaning than the surrounding public narrative suggests.
