Subject: Controlled Opposition Deck | Scope: 140 relevant indexed records reviewed; 140 within the current reporting window. | Current Assessment: Do pandemics, wars, financial crises, terrorism, climate emergencies, cyber threats, and migration crises repeatedly expand surveillance, centralisation, emergency powers, or compliance systems? Current site data supports treating this as a public-record theory lane, not as a proven hidden-command claim. This gives readers a disciplined way to explore a powerful narrative while separating records, analysis, inference, speculation and missing documents. | Boundary: The section reflects indexed public records, not every record in existence.

Conclusion: The indexed record establishes that 10 A/B-grade public-record items are materially relevant to Controlled Opposition Deck. | Evidence Classification: ESTABLISHED PUBLIC RECORD | Confidence: 96 | Limitations: This establishes the existence and content of the cited records, not every allegation, motive, wider network claim or criminal inference attached to the subject. | Alternative Interpretation: The records may document separate events rather than a coordinated system.

ITEM 02

Title: Elite Power Theory | Summary: Do public records show durable influence routes through families, foundations, boards, finance, philanthropy, universities, media, diplomacy, think tanks, and policy networks? Current site data supports treating this as a public-record theory lane, not as a proven hidden-command claim. This gives readers a disciplined way to explore a powerful narrative while separating records, analysis, inference, speculation and missing documents.
