WHAT THIS FILE IS

A declassified-history starter brief for readers entering the intelligence dossiers, agency maps, source-methodology pages, and public-record archive routes.

WHY THIS MATTERS

- Get the agency archive route: how to enter declassified files, separate official record from inference, and move into the intelligence dossier reading path.
- The reader can start researching agency files without treating every declassified fragment as a complete conclusion.

WHAT THE RECORD CAN SUPPORT

- Which archive routes matter first: declassified files, oversight records, agency releases, and public dockets.
- How to separate source, inference, allegation, and conclusion.
- How the Intelligence Dossiers series is organised as a reading path.
- Why the source-methodology page is the safety rail for darker material.
- This brief supports reader orientation, evidence routing, public download value, and next actions.

SPECULATION BOUNDARY

- This free brief does not increase evidence strength. Treat it as a route map until the linked source/evidence page supports a stronger claim.
- Speculation must remain labelled and separated from court records, official data, documented associations, and confirmed facts.
